Capability Brown Folly

This unique Capability Brown Folly was built by James Wyatt whose visionary mixture of architectural styles makes Broadway Tower still outstanding today.

Fascinating Exhibitions

Graphic Displays on three floors invite you to travel in time and share in the lives of the Earls of Coventry, William Morris, eccentric collectors and wartime heroes.

Dramatic Views

Broadway Tower was built on an ancient beacon site with views in a radius of 62 miles. Be amazed to see the Welsh Mountains at the same time as Buckinghamshire from our roof viewing platform or simply marvel at our herd of Red Deer with "Bambies" from mid-June.

Secret Nuclear Bunker

The Royal Observer Corps used the unique vantage point to track enemy planes over England during the world wars of the 20th Century and later constructed a nuclear bunker to report nuclear attacks during the "Cold War". Open only weekends and feature days. Please see our online events schedule: broadwaytower.co.uk

How to get there

Broadway Tower is off the A44 Evesham/Moreton-in-Marsh route, 1 mile south-east of Broadway, Worcestershire.
